Press Release

All Media houses

We the staff of National Service Authority, strongly condemn the practice of political party foot soldiers attempting to hijack the National Service Authority. This phenomenon undermines the principle of democracy, erodes public trust, and compromise the integrity of our institutions.

We wish to reiterate, to the general public that, the National Service Authority is a public institution under the Public Services Commission. Our recruitments and transfers are done in line with our approved Scheme of Service, and in accordance with the Public Services Commission Act and the provisions of the Constitution under Article 195.

We are by this, calling on the youth of Western Region to exercise restraint and allow the Management of the Authority to function as defined by the laws and status.

We are equally calling on Management to adhere to the guiding principles and protect the integrity of the Authority.

We call on the government to ensure that state institutions like the National Service Authority be protected from political interference.

We want to advise the political parties to refrain from using the National Service Authority as tool for advancing party interests and to respect the independence of the Authority

The National Service Authority internal transfers and recruitments is not at the mercy of any other group or individual's call but as enshrined in the National Service Authority Act 2024 (Act 1119), the Public Services Commission Act 1994 (Act 482) and Article 195 of the Constitution.
